

## Your Southern California Chapter ACI

### *Be part of the "in" crowd*

The Southern California ACI chapter's membership roll boasts the cream of the crop in concrete professionals. You'll find contractors, engineers, designers, technicians, educators and architects. They're the local movers and shakers in our local industry. And you should join them.

### *Be in the know*

As a member of the Southern California chapter, you expand your knowledge and keep up-to-date through seminars, workshops and discussion groups. Your peers are among the most well-informed people in the world of concrete. You'll work with them, share with them, get "in the know" and grow.

### *Be in demand*

You can participate in our local chapter's study projects on design, building and use of concrete structures. You can concentrate on what really interests you, on what stimulates you.

### *Have a say in your industry*

Chapter members participate in common action to develop more workable codes and standards. It is this work that leads to the industry standards adopted by ANSI and governments spanning the globe. They are vital to the education and interests of all who make their living in the world of concrete.

### *Be in touch with local problems*

Your chapter provides access to answers to local concrete problems. On a continuing basis, the local chapter works to improve the quality of local concrete and for the advancement of good concrete usage by the industry.

### *Dinner meetings*

Held bimonthly on the third Thursday of the month in Sept., Nov., Jan, Mar., and May at various restaurants near you. Check the website [www.ACISoCal.org](http://www.ACISoCal.org) for programs and information.

### *Join now and reap the benefits*

Local action. Local contacts. Local answers. Only your Southern California chapter can provide access to all of them. Joining this chapter is the most important step you can take to ensure you are at the cutting edge of the concrete industry progress.

*Please fill in the Membership Application and mail, fax, or email it today*

Send it to the address shown at the top of the Application form.
